Hi Detective Juarez,

I'm going to send an email after this one with my statement attached. I just want to make sure that my first one goes through any spam folder with no attachments so you can have a heads-up of the next email.

Thank you, Karen [REDACTED]

Harris-Czubko homicide case with Word doc attachment - Aug 4 body pulled from Kern River

Hi Detective Juarez,

Would you please confirm (if possible) that you have received this email with the attachment? Apparently several of my texts haven't gone through regarding this case. I don't know which ones haven't. Resending here now via email. I'm cc'ing myself.

Thank you, Karen [REDACTED]

November 27, 2020

Hi Detective Juarez,

My name is Karen ██████████. This statement is regarding my niece, Brynia Kayle Harris-Czubko, whose nude body was pulled from the Kern River on August 4, 2020. Her date of birth was March 8, 1990.

The following will be my statement of [REDACTED] regarding her death based upon information I have [REDACTED]

A thick black horizontal bar, likely a redacted section of a document.

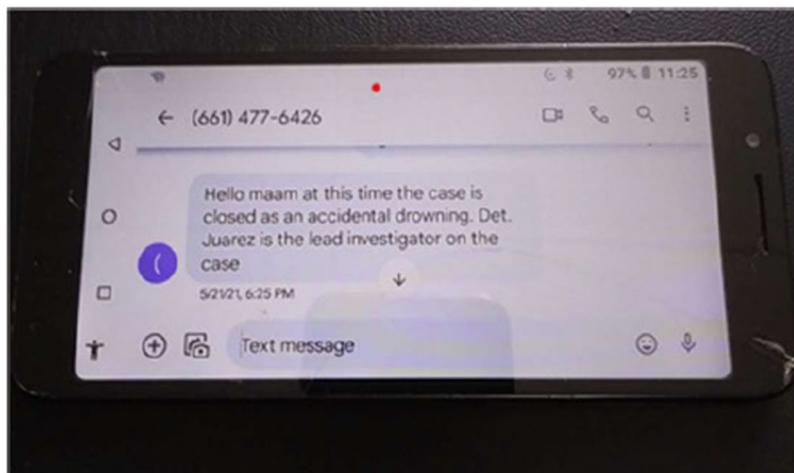

A horizontal bar chart consisting of five solid black bars of increasing length from left to right. The bars are separated by small gaps and are set against a white background.

A horizontal bar chart illustrating the percentage of the population aged 15-24 in 2010 across different countries. The x-axis represents the percentage, ranging from 0% to 100% in increments of 10%. The y-axis lists the countries. The bars are black and show the following approximate values:

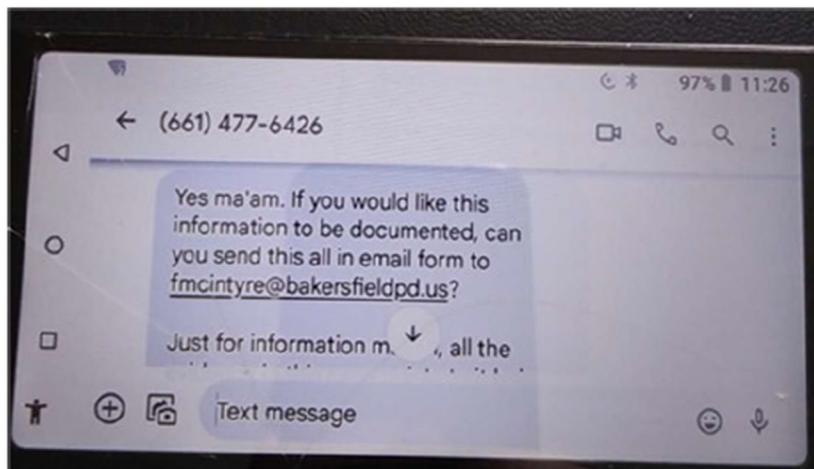

Country	Percentage (approx.)
Angola	100
Argentina	98
Algeria	97
Armenia	96
Argentina	95
Angola	94
Algeria	93
Armenia	92
Argentina	91

/s/ Karen [REDACTED]

This is the first time I had learned that the case had been closed, and that it was closed as an accidental drowning.

From early August 2021, when I was still disputing the case findings. I had literally just given him new information that was crucial. Instead, Detective Frank McIntyre indicated the BPD version of what happened to my niece.

Hi Detective McIntyre,

A large black rectangular redaction box covers the majority of the page content, from approximately [113, 113, 886, 886]. It is positioned above a white horizontal bar at the top of the page.

1. **What is the primary purpose of the study?** (Please select one)

Brynia's autopsy reports

No fluid in her lungs,
and the coroner has not determined her cause of death.

I located an eyewitness with dash cam videos and asked if they were related to my niece's case.

What you will see is firsthand testimony by the eyewitness #1.

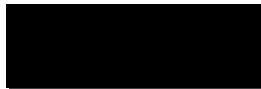

10/27/21, 7:55 PM

[REDACTED] this is regarding a dash cam you may have gotten last year regarding a BPD incident. My name is Karen, from Tehachapi, 8/4/2020, [REDACTED] body found in the Kern River was my 30-year old niece.

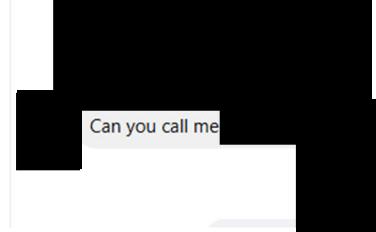

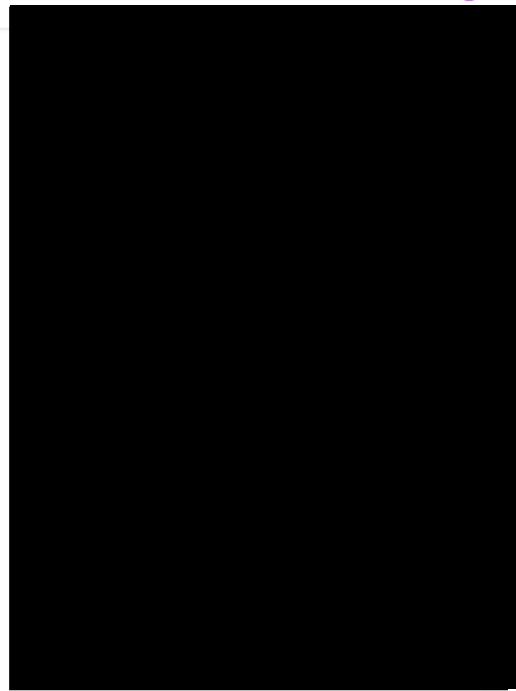

I'm just curious if you saw anything of Brynia's red 4-door 2015 Mazda3 car being driven, towed, or parked near the river? Her car was parked past the power plant and at the first turnoff along 178 (going toward Lake Isabella) - the left hand side, dirt lot, many rocks about the size of basketballs blocking part of the turn off. I'm just wondering if your dash cam related to anything of this

legit Brynia's direct blood relative
Please accept my apology if I have crossed the line to message you about this. I want to know anything I can, but I know it may not be possible.

Thank you for your time, regardless. Karen

Can you call me

▼

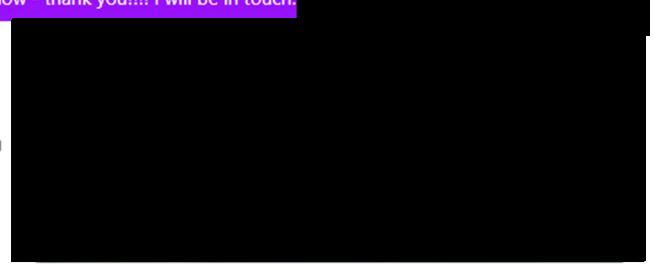

Calling now. Landline phone.

10/27/21, 8:36 PM

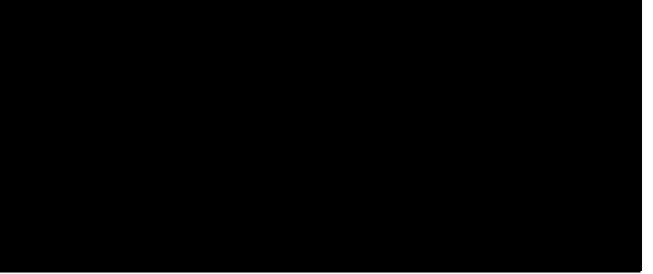

10/27/21, 10:41PM

[REDACTED] see it now - thank you!!!! I will be in touch.

↑

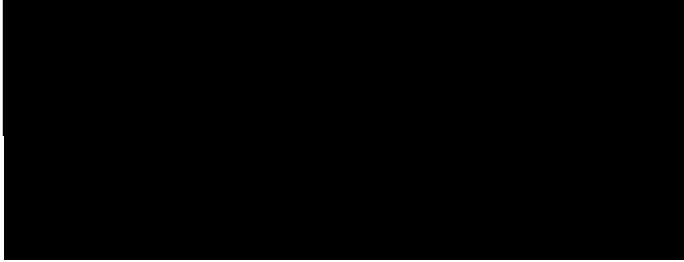

[REDACTED] I used a 360 view on the mov video. It can play in slow motion.

↑

[REDACTED] We will definitely be praying

10/27/21, 11:31PM

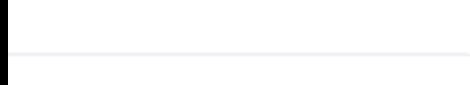

10/27/21 11:31PM

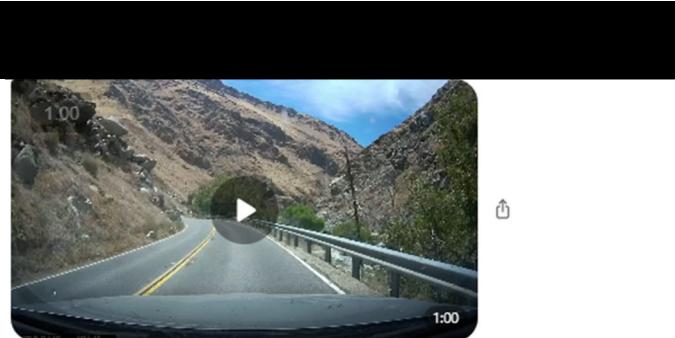

This is what we had seen

This is the white pick up with a camper shell and motorcycle attached to the back
this was August 3rd and the back driver side window is down. I will send the video
right now
